# LukeSortsIt - Ethical Tech Consultant

"Big impact doesn't need big budgets. Just smart tech."

## About Me

Hi, I'm Luke, a freelance IT consultant helping purpose-driven people turn their ideas into custom tools that actually make a difference. Whether you're a charity, creator, student org, or social startup, I build fast, simple, and scalable tech solutions - without the tech headache.

## Services I Offer

### 1. Ethical Tech for NGOs & Social Projects

Lightweight mobile/web apps for mental health, education, disaster planning, or accessibility.

- Grant-friendly

- Offline-capable

- Built fast, for good

### 2. AI Assistants & Chatbot Setup

Personalised GPT-based chatbots for support, learning, health or productivity.

- Voice or text input

- Custom data integration

- Easy to use, no tech team needed

### 3. No-Code App Development

Smart, fast MVPs and tools using Bubble, Glide, or Airtable.

- Habit & fitness apps

- Booking systems

- Feedback or form tools

## 4. Lightweight Business App Creation

Python or Streamlit-based tools built for your exact workflow.

- CRM replacements

- Inventory, task trackers

- Visual dashboards

## 5. Dashboard Development

Interactive, auto-updating dashboards for anything from football stats to fitness tracking.

- Streamlit / Tableau / Power BI

- Mobile-ready

- AI summaries, buttons, filters

## Pricing

- Small tool / dashboard: from 350

- AI chatbot / app MVP: from 450

- Custom quote for full-feature builds

- Discounts available for NGOs, students, and social causes

## Book a Call / Contact

Want to see if I can help your project?

## Projects & Case Studies

### Free Trial Build #1: Mental Health Tracker for Teens

Built an offline-capable chatbot that checks in with young users and provides wellbeing tips based on mood.

"Luke just got it. No fluff, no delays. He gave us a tool that felt custom and easy."

### Free Trial Build #2: NGO Emergency Dashboard

Live Streamlit dashboard for tracking shelter space, supply drops, and incident logs.

"We shared it with our partners the same week - they were amazed."

## Why Work With Me?

- Fast delivery, focused builds

- No-code & full-code flexibility

- Ethical-first focus

- Mobile-optimised results

Let's sort your tech. The smart way.
